

Seta Block Heater

- Dry heating for samples
- 15°C to 130°C
- 4 tube capacity
- 999 minute timer
- Over temperature cut-off

A processor controlled heater designed to be used in conjunction with a 90301-0 Block for heating centrifuge tubes. The heater has a temperature range of 15 to 130°C.

The heater is equipped with a 1 to 999 minute countdown timer with buzzer, a temperature deviation alarm that can be set from 0.5 to 10°C allowable deviation, an external temperature probe socket and a delay start stop feature allowing the heater to be turned on or off after a predetermined time interval.

The heater can be calibrated by the user over a wide temperature range.

Supplied with: block extractor tool, mains lead and instruction manual.

Specifications:

Product Number:	90300-2
Temperature Range:	15 to 130°C
Stability:	±0.1°C
Timer Range:	1 to 999 minutes
Heater Power:	200W @110V 300W @ 240V
Voltage:	110/120V, 50/60Hz 220/240V, 50/60Hz
Size (HxWxD):	10x20x28 cm
Weight:	3 kg
